

## **Sonya Bachmann**

Hello Nine Mile Ranchers! I want to thank you for your vote of confidence three years ago, allowing me to join the Board. I spent my first year supporting the Treasury and Finance chair. I then volunteered to assume the Secretary position, responsible for documenting the minutes from the Board Meetings. I have strived to provide comprehensive coverage and contextual explanations of the actions of our Board. I believe it is especially beneficial for owners who are still remote and want a better understanding of current events, decisions, and criteria used in evaluating best practices.

Through my involvement with the Board, I have come to realize how much work, effort, and care is taken to maintain the roads through all four seasons, to uphold the CC&Rs thus preserving the wildlife sanctuary and other attractive attributes of our community, and to remain in compliance with the myriad of constantly changing legal restrictions and regulations. I will continue to support, and stand behind the Boards enforcement of our defined community standards and protections.

On a personal note, we were able to secure a beautiful home across the street from where we were going to be developing our homestead. Now I am busy planting flowers for the deer!

I would like to continue to serve on our Board and ask for your renewed support and vote. Thank you for your consideration.

## **Bill Burman**

My name is Bill Burman and I am running for 9 Mile Ranch board director to get involved in the issues affecting the ranch. Gail and I bought our property in 1995, built our house in 2004 and moved in permanently in 2006. My work career involved heavy construction including road restoration. I have been on the road committee since 2019 and snowplow coordinator since 2023. I am committed to preserving the wildlife sanctuary and nature conservancy concept of the Ranch and to the continued maintenance and improvement of the roads.
